

Adell

Lightweight
and comfortable

Completely disassemblable to make it recyclable

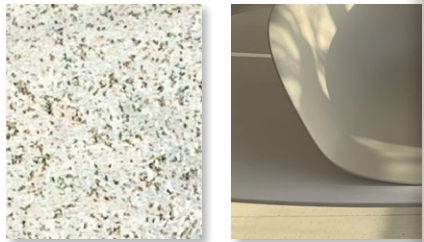

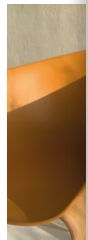

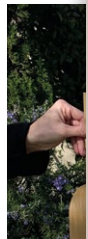

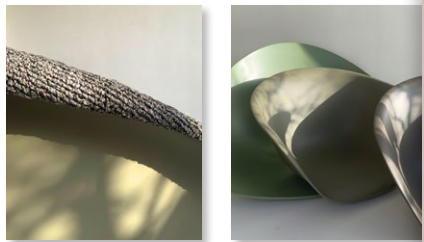

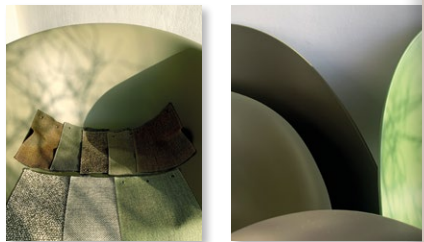

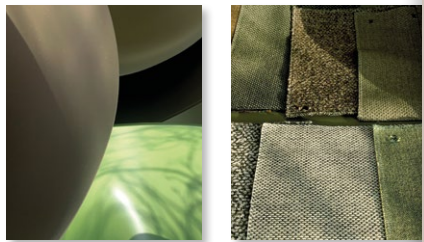

● Upholstery

● Shell

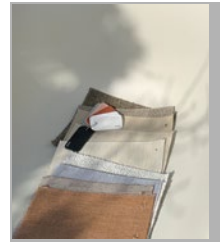

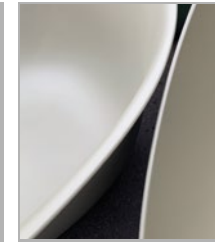

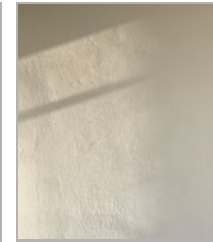

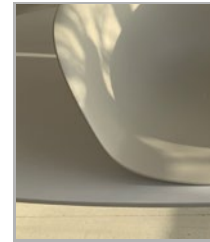

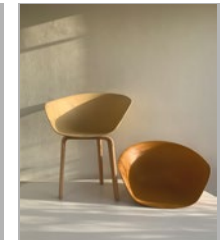

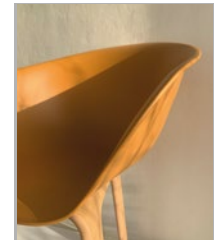

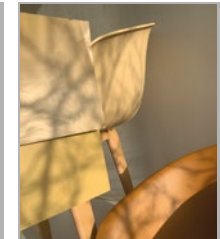

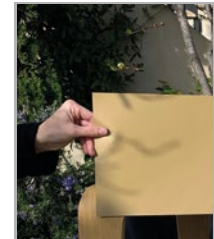

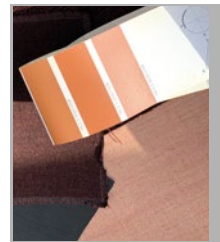

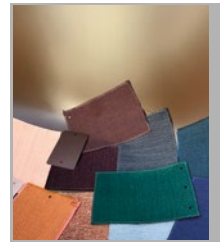

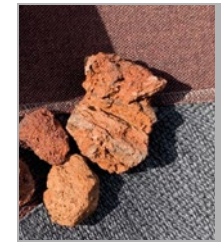

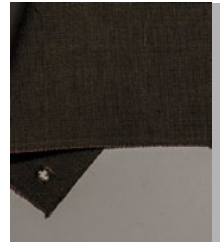

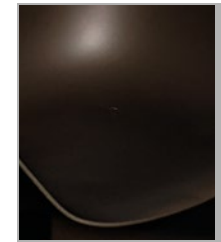

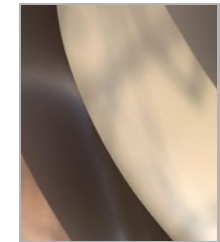

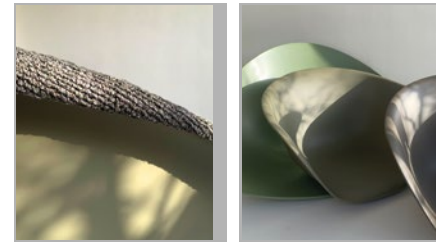

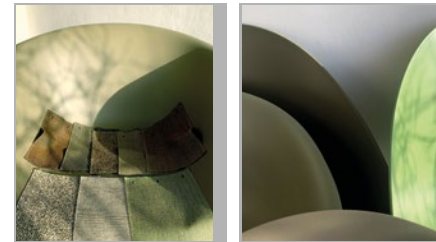

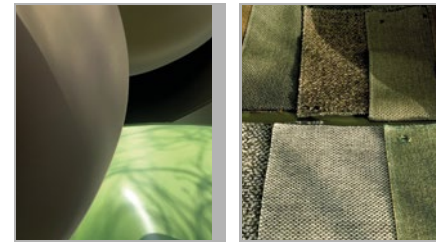

● Base

● Glides

- Adell's shell is made from post-industrial recycled plastic
- Adell can be disassembled for responsible disposal
- All materials used in Adell can be recycled or upcycled and incorporated into the life cycle of other products, thereby reducing overall waste
- The paints used on Adell incorporate environmental protections: water-based paint is used on wooden surfaces to reduce environmental impact and powder-based coat free of VOC* emissions is used on metal surfaces
- Adell is made without glue to eliminate emissions and ensure all component parts can be recycled or repurposed
- Adell wood base version is certified by the Forest Stewardship Council®

*Volatile Organic Compounds

Adell

Smooth like a pebble,
soft as mounded moss
