THAT MINIMAL
FORM PROVIDES
COMFORT
AND CALM FOR
THE MIND

Aston Club Low Back

COMPLETELY DISASSEMBLABLE
TO ALLOW FOR RECYCLING

Designing for Sustainability

- The plastic components of Aston Club Low Back are made from post-industrial recycled polypropylene
- Aston Club Low Back can be entirely disassembled and all materials can be recycled or upcycled and incorporated into the life cycle of other products, reducing overall waste
- Aston Club Low Back is produced without any glue in order to reduce the emissions and allowing for the responsible disposal of all component parts
- Aston Club Low Back uses powder-based coat that is free of VOC* emissions

*Volatile Organic Compounds
